NEED LAW ON CONSERVATION.

Investors Are Not Protected, Declare Experts.

Pinchot Accused of Trying to Evade the Law.

"Nation Should Have Advice of Trained Men."

(BY DIRECT WIRE TO THE TIMES.)

ST. LOUIS, May 26.—[Exclusive Dispatch.] Henry L. Doherty, of Doherty & Co., New York, and J. R. McKee, brother-in-law of President Harrison and father of the famous "Baby" McKee, and connected with the General Electric Company, in addressing the National Electric Light Association in convention held today, denounced the government's present method of conservation of national resources, particularly water power, and advocated State control of waters.

Doherty said he employed a subterfuge to withdraw many water-power sites from entry, and had tried to evade the law, McKee said that there are practically no laws governing water power now, and for that reason millions of capital was being held back from investment in them.

McKee quoted Doherty's reference to President Taft, and said he agreed with him that the President should call into consultation with him men trained in the school of responsibility—men who are carrying on real conservation.

IMMEDIATE ACTION NECESSARY. "The President should hear the men who have money ready to invest in water power, in justice to them," he said. "Something must be done immediately. The main trouble is the government has the investor on the top, because the government can take them into court, but it is impossible for them to cite the government. There should be some legislation in this regard."

Charles P. Steinmetz, chief consulting engineer of the General Electric Company, who ranks next to Edison in this country, said he believed Pinchot was honest. He said that the association should make a campaign to bring about a correct understanding between the capitalists and the people. Doherty and McKee, among the men accused of planning a water power trust by President Roosevelt in his last message.

"The tendency now," Mr. Steinmetz said, "is really destructive. Capital is not guaranteed its right, and is absolutely justified in not investing money in developing water power."

"On the other hand, the people are right in being careful in the matter of a national resource. It would be manifestly wrong to allow private ownership of these resources."

CAMPAGNE OF EDUCATION. "What is needed is a campaign of education. Had this association spent as much in that line as on engineering problems, a solution would have been arrived at long ago."

Dr. Steinmetz said he could not offer a solution, as he confessed he did not know enough about the question. He was the last to speak, after which at the conclusion of his remarks the power transmission section was organized to make a thorough investigation and gather data for presentation to the members of Congress to secure desired legislation.

Looking toward the day when electricity shall be the servant of the farmer, as it is now of the manufacturer, Herman Russell of Rochester, N. Y., spoke today of the use of electricity in irrigation of farm lands. He said:

"The farmer of the future, to be successful, must in so far as possible be independent of the elements. Then he must put himself into a position which will enable him to get the most possible out of his land."

NEED OF IRRIGATION. "Speaking from the point of view of an eastern farmer, I believe it is essential to supplement our rainfall by irrigation. There is no section of the country at the present time that does not suffer almost every year from drought during the growing season."

"We go to great pains to insure our homes and places of business against loss by fire, and yet we stand idly by and watch our farms burn up."

"It is not time that the farmers everywhere take out drought insurance by installing irrigation systems."

After citing statistics to show the reasonableness of his position, Mr. Russell concluded by saying:

"I look forward to a time not far distant when electric lines in the country will be as common as telephone and telegraph lines are today, and the present enormous idle investment of our central traction companies will be employed in making our farms more productive and life more worth the living for both the farmer and the company—at good profit for each."

UPPER YUKON OPEN.

Alaskan Steamers Carry Freight and Passengers to Fairbanks.

(BY DIRECT WIRE TO THE TIMES.)

TACOMA, May 26.—[Exclusive Dispatch.] Dawson dispatches dated today say the steamer St. Michael, the first boat of the year for Fairbanks and Iditarod, sailed yesterday morning with 200 tons of freight and 110 passengers, half of whom arrived Sunday on the steamer La France and Pauline, the first boats from the upper Yukon this year. The hundred most passengers are booked for Iditarod and Fairbanks. Capt. Wallace Langley, owner of an independent steamer, brought 100 tons of freight over La France ship for Iditarod.

The steamer Casca arrived Tuesday and proceeded to Eagle with the international boundary survey, comprising sixty-five men and one hundred horses, to extend the line between Canada and Alaska from the Yukon to the Arctic. Steamboat men predict Lake Labarge will open June 6. One hundred and fifty tons of freight recently moved from Labarge has been moved across.

J. O. Johnson, an old Alaskan, is building at Ballard one of the lightest draft flat-bottomed river boats ever sent to Alaska. It is forty-two feet long and seven feet beam and will draw only eight inches light and fifteen inches loaded. Johnson's partner is now at Iditarod. He will ship the boat to St. Michael June 15, navigating it thence to Iditarod River. He will spend the summer freighting his own cargo, and will also carry freight for the boat is a stern-wheeler and will have a fifteen-horse-power engine.

NEED MEN TO PICK FRUIT.

Yakima Valley Growers Organize and Will Ask Eastern Colleges to Send 5000 Students.

(BY DIRECT WIRE TO THE TIMES.)

TACOMA (Wash.) May 26.—[Exclusive Dispatch.] The Yakima Valley Labor Bureau, an organization of ranchers who will deal with the shortage of labor, was formed at Tappan yesterday as a result of a conference of the Tappan Commercial Club for representatives from every city of Yakima Valley to make plans for the importing of labor to handle the fruit crop.

It was decided to make a canvass of the number needed, the estimate being at least five thousand, and to apply to eastern colleges and universities for students.

State officers will be asked to organize a State labor bureau in connection with the present publicity bureau of the Secretary of State's office. It is believed that the call for help from State authority will produce the best results.

The Northern Pacific and Great Northern are buying hundreds of new refrigerators built to handle the crop from Yakima, Walla Walla, Wenatchee and other fruit districts, all of which, from present outlook, will have a record fruit crop this year. A fruit train will be shipped daily from Yakima Valley with a guarantee time of five days to Mississippi Valley terminals.

Success of Yakima hop growers in getting pickers by organization leads fruit growers to adopt similar plans on a larger scale.

OBITUARY.

Thomas Del Valle.

SANTA BARBARA, May 26.—Thomas Del Valle, aged 87, whose brother Ignacio, owned the Camulos Rancho, and whose mother's family, the Higuera, owned the Napa Rancho, where that town is located, died tonight. He was an uncle of former State Senator Del Valle of Los Angeles.

DOCTOR OF LAWS.

ROOSEVELT IS HONORED WITH A DEGREE FROM CAMBRIDGE.

(ASSOCIATED PRESS NIGHT REPORT.)

CAMBRIDGE (Eng.) May 26.—Theodore Roosevelt today received from the University of Cambridge, the honorary degree of Doctor of Laws. The ceremony was brief and devoid of much of the usual splendor, but was marked by much enthusiasm on the part of the faculty and students, who gave their guest a splendid reception. The conference took place in the Senate house. Only the recipient of the degree and the public orator, Vice-Chancellor Mason wore the pink-lined scarlet robes, while the women of the audience were in mourning gowns.

When Mr. Roosevelt accepted his diploma, students who crowded the galleries shouted: "Teddy, Teddy," and the whole audience cheered.

The old Senate building was packed with 1000 persons, including the faculty and directors of the university, in their gowns, and many women, who filled the body of the building, while the galleries were occupied by students. During the ceremony the students swung their Teddy bears over the center of the hall, where it dangled, to the entertainment of everybody.

STATELY PROCESSION.

Mr. Roosevelt joined in the pleasant and as he was leaving the building reached up and patted the toy bear with his hand.

The procession was short, but picturesque. It started from Pembroke College, where Mr. Roosevelt had luncheon, and moved slowly to the Senate house. First marched two liveried bearers.

Next came Mr. Roosevelt in his robe and wearing a flat velvet cap. Beside him was Vice-Chancellor Mason. Following the two were several professors, while two more bearers brought up the rear. The proceedings of conference were in Latin. The Vice-Chancellor uttered the laudatory address, highly praising Mr. Roosevelt as a statesman, litterateur, sportsman and peace-maker.

As he concluded he handed Mr. Roosevelt his diploma, while the audience gave three cheers.

The audience was decidedly friendly—cheering the former President on his arrival and departure and at frequent intervals during Mr. Mason's speech.

DIES BECAUSE OF RIDICULE.

Boy Commits Suicide When Playmates Make Fun of Him for Stammering.

(BY DIRECT WIRE TO THE TIMES.)

GENEVA (Ill.) May 26.—[Exclusive Dispatch.] Glenn Lawrence, a 15-year-old boy, son of Frank D. Lawrence, a wealthy lumberman, jumped into the Fox River at Geneva today and committed suicide. Playmates had ridiculed him because he stammered, and this is the reason given for the deed. He left a note to his mother, telling her of his intention to take his life. His clothing was found pooled on the river bank. A searching party is dragging the river for his body.

PATTEN BIG LOSER.

(Continued From First Page.)

developments, is understood with certainty. As to Patten, it is not known whether he and his brother, George, have disposed of all their September holdings or still have a considerable amount waiting a possible steader market to extend the line between Canada and Alaska from the Yukon to the Arctic. Steamboat men predict Lake Labarge will open June 6. One hundred and fifty tons of freight recently moved from Labarge has been moved across.

J. O. Johnson, an old Alaskan, is building at Ballard one of the lightest draft flat-bottomed river boats ever sent to Alaska. It is forty-two feet long and seven feet beam and will draw only eight inches light and fifteen inches loaded. Johnson's partner is now at Iditarod. He will ship the boat to St. Michael June 15, navigating it thence to Iditarod River. He will spend the summer freighting his own cargo, and will also carry freight for the boat is a stern-wheeler and will have a fifteen-horse-power engine.

PROFITS ALL A GUESS.

Traders are assured that Theodore Waterman, the Albany miller, the leading May long, has carried his deal through to a successful conclusion and forced the shorts to settle with him at his own price, generally believed to have been around \$1.14. Many efforts to gauge his profits have been futile. J. Lichtstein is said to have been the leading short interest in this option, but clearly as agent for a big elevator concern.

Several cargoes of actual wheat were delivered to Waterman during the last ten days in an endeavor to break the market. The latter bent, but did not break. That a settlement had been effected became known today, when a cargo of No. 1 northern wheat consigned to Chicago for Waterman to Waterman was delivered to Buffalo. How many other short contracts remain to be settled before the end of the month, when the option closes, is a matter of conjecture. The market declines today were 5 1/2 cents in May, and 2 cents in September. The close, May at \$1.05, 1/2, 1/4, September at 93 cents, was within a small fraction of the bottom.

A REMARKABLE ESCAPE.

Injured Auto Driver Faints and Is Thrown Out When the Car Hits a Tree.

(BY DIRECT WIRE TO THE TIMES.)

STOCKTON, May 26.—[Exclusive Dispatch.] After being badly injured while repairing a gas engine on his uncle's place near Lodi, Leland Vernal met with a second accident on his way to Lodi to secure the service of a physician yesterday, and is still in a serious condition. A train attempted to start the engine after having been working on it for some time, and the crank flew backward, striking him in the face and cutting a long gash down which the blood streamed. Unable to stop the flow, he started for Lodi in an automobile, but fainted from the loss of blood. The machine left the roadway, climbed over a large pile of wood and was finally stopped when it landed against a tree. Vernal was thrown out and again seriously injured.

The noise made by the machine attracted Miss Marie Lang and the Clausen family to the scene. The injured man was returned to the home of W. C. Brown, his uncle, where physicians attended to his wounds. He escaped death after he lost control of the automobile is a mystery, as the machine ran at a speed of fifty feet through a ditch and over a large wheel pile.

INSURGENTS AND DEMOCRATS UNABLE TO BEAT RAILROAD BILL.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, May 26.—Through the defeat in the Senate today of a number of amendments offered by insurgent Republicans and Democrats the way was paved for an early vote on the administration railroad bill.

It is believed this will come tomorrow, and the Senate then will adjourn until Monday, when the Statehood bill probably will be made the unfinished business.

The regular Republicans maintained a firm hold upon the situation during several votes on important features, notwithstanding the insurgents and Democrats united their votes on several occasions.

More was accomplished during the closing hours of the session today than in any day during the three months the bill has been pending. LA FOLLETTE FINISHES. Not until 3 o'clock was anything done beyond listening to discussion of the measure, but when at that time Senator La Follette rose to deliver his day's speech in opposition to the bill, the voting proceeded rapidly, with the following results:

The amendment requiring the approval of the Interstate Commerce Commission on all increases in rates before they become effective, as lost, 25 to 45.

The Martin amendment, requiring the commission to reach a final decision within six months, was defeated, 18 to 54.

An amendment by Mr. Clark of Arkansas, to increase rates until passed upon by the commission before putting them into effect after six months, was defeated, 35 to 40.

EXTENDS HEARING PERIOD. An amendment composed of propositions by Senators Jones and Paynter was accepted. This provision provides for the extension for a period of six months of the 120-day suspension of new rates and regulations during the hearing period. It was not concluded within that time, and for the refunding of the difference between rates if the new rate is found to be unreasonable. This amendment was adopted unanimously.

An amendment by Senator Hughes, to suspend the provisions of the bill, also was adopted, Senator Burton casting the only negative vote.

Of the votes of the day, the one on the Cummins amendment was by far the most important. The vote was 54 to 46 in favor of the amendment, predicted by its friends and feared by its opponents. Three days ago opponents of the bill had been apprehensive of the success of the amendment, but during that time they had been extremely active, so that while they scored the defeat of the provision.

HOW THEY VOTED. Of the 29 votes favorable to the amendment, 12 were cast by insurgents, 17 by Democrats. Insurgents, however, desirous of legislation prohibiting what they believed to be abuses in railroad capitalization. While, therefore, they were willing to have the original provisions, eliminated, they would not consent to allow the bill to go to a vote without some effort in the direction of regulation, and Mr. Dooliver's amendment was offered.

When the Senate meets tomorrow, the Dooliver amendment, the La Follette amendment providing for the physical separation of railroad property, and the Newlands amendment providing for the national incorporation of railroads will be the only subjects left for consideration.

If long speeches can be eliminated, the bill should not be reached before the end of the day, as it is regarded by many as the most important measure of the session.

DRABTIC. HUTTON AND CO. IS SUSPENDED BY NEW YORK STOCK EXCHANGE.

(ASSOCIATED PRESS DAY REPORT.)

NEW YORK, May 26.—Announcement was made by the brokerage firm of E. F. Hutton & Co. that the firm had been suspended from the privileges of the New York Stock Exchange for the period of one year, following submission of charges that the firm had been guilty of violating exchange regulations regarding sharing of commissions.

The only public statement made by the stock exchange authorities regarding the Hutton firm was as follows: "The firm of E. F. Hutton & Co. was suspended from the committee for a period of one year for violating Section I of Article 34 of the constitution in paying to an employee in the shape of an unusually large salary, a portion of the commissions received from customers secured by said employee."

"It appeared in the firm's statement that it was charged with having employed H. B. Barrett, a partner in the firm, for a period of one year, at a salary of \$1500 a month because of the fact that the firm had profited by business-sought or procured for by said Barrett in the city of New York."

In the statement, E. F. Hutton & Co. entered a general denial of the charges, and declared the payments made Mr. Barrett were in full for his services. The statement added: "It is the intention of the above firm to continue their business and to give the same service, dispatch and attention to their clients as heretofore, and this suspension will in no way operate against the interests of their friends and customers. Any evaluation of the commission law was technical, and not intentional, and there has been no spitting of commissions, as had been rumored."

The firm is an important one, with offices in New Street. It was organized in 1905, and consists of E. F. Hutton, George S. Ellis, Jr., W. L. Hutton, who is the board member, and E. E. Adams. The firm has prominent western connections through Chicago and to the Pacific Coast.

TO STICK TO DARNING SOX. TACOMA (Wash.) May 26.—[Exclusive Dispatch.] That there is utterly no truth in the story sent out from Seattle today that Margaret Illington Bowes, his wife, is to return to the stage which she deserted when she secured a divorce from Daniel Frohman, is the assertion of Edward J. Bowes.

Mr. and Mrs. Bowes are living in handsome apartments in the Bowes block in this city. Mr. Bowes states that the story is merely baseless rumor. He and Mrs. Bowes are contented, he states, and expect to make Tacoma their permanent home. His wife, he says, has not lost her recently expressed liking for darning sox.

AMES TO TRIAL TUESDAY.
 Court-martial of Army Officer in the Philippines Will Be Held Behind Closed Doors.
 (BY DIRECT WIRE TO THE TIMES.)
 MANILA, May 26.—The court-martial of Lieut.-Col. Robert F. Ames of the Twelfth Infantry, U.S.A., will open Tuesday, and the proceedings will be behind closed doors. At the head of the court will be Brig.-Gen. John B. Pershing, commander of Fort William McKinley, and Brig.-Gen. Daniel H. Brush, commander of the Department of the Visayas.
 Lieut.-Col. Ames is charged with conduct unbecoming an officer and to the prejudice of military discipline. On the night of March 12 he gave a dinner, his guests including Lieut. Clarence M. Janney and the latter's wife. During the evening the Janneys quarreled, and the lieutenant shot and killed himself.

CONAN DOYLE PRAISES KING.
 "STRONGEST AND BIGGEST MAN EVER ON THRONE."

John Kendrick Bangs Brings Notable Message to America from Sir Arthur in Which Author Lauds George V. for Gracious and Manly Qualities.

(BY DIRECT WIRE TO THE TIMES.)
 NEW YORK, May 26.—[Exclusive Dispatch] John Kendrick Bangs, the humorist, who has spent two months traveling on the continent and in London, returned today on the White Star liner, Adriatic, and brought a message which he said Sir Arthur Conan Doyle sent to the American people regarding the new King of England, George V. The message follows:
 "George V. in my opinion, is the strongest and biggest man, mentally, who ever ascended the throne of England. I believe he has a greater familiarity with the needs and resources of the British empire than any man in England. He has all the gracious qualities that endeared his father to the people, and on the human side he is quite as much interested in the things that interest the average man and father, except that they are of a different character. He is not as fond of the turf as the late King, but in the many lines of sport he is one of the most sportsmanlike men in the kingdom. He is one of the two or three of the best shots in England for one thing."
 He said before the death of King Edward, Lord Rosebery gave a dinner at which about forty more representatives of the highest department of political and artistic life in England were invited to meet George V., then Prince of Wales. His Royal Highness rose at the conclusion of the dinner and spoke for from ten to fifteen minutes, in which brief time he showed a deep and detailed knowledge of each guest's particular line of work. It was a marvelous exhibition of artistic and practical knowledge."

SOLID GOLD SERVICE.
 Costly Gifts Feature of Pulitzer-Wickham Wedding in St. Louis, June 10.

(ASSOCIATED PRESS NIGHT REPORT.)
 ST. LOUIS, May 26.—Friends of Miss Elvira Wickham of St. Louis are authorized for the statement that the father of her fiancé, Joseph Pulitzer, Jr., has presented her with a solid gold dinner service for a wedding gift. The service is described as being extraordinarily magnificent and very beautiful and is said to be valued at \$50,000.

YALE MEN SUSPENDED.
 NEW HAVEN (CT), May 26.—Robert A. Kelly, of Xenia, O., Samuel Burr, of Moosup, Ct., and Raymond Goodrich of Portland, Ct., members of the Sheffield School of Yale, who "borrowed" an automobile belonging to G. G. Prentice, Jr., of this city, also a scientific student, have been suspended by the Yale authorities, as Prentice declined to press the case against them in court. The machine was recovered in Waterbury. The taking of the machine was the result of a "dare," according to the students.

NATION SAVES ONE TREE.
 WASHINGTON, May 26.—A tree planted in 1840, on what is now the proposed site of the new postoffice at Richmond, Va., is to be spared the woodman's ax. This Mr. Hillis, Assistant Secretary of the Treasury, has consented to, following a plea from A. J. Goff, aged 75, of Boulder, Colo., presented by Senator Page of Vermont. Seven generations of the Goff family, the head of which was a Revolutionary soldier, it is said, have lived under the tree.

HOMELESS RACE.
 PRESS DAY REPORT.]
 Press day, being obliged to return to their native towns to obtain new permits for a visit to Kiev, on the grounds of urgent personal business. These permits are issued for limited terms, and so require frequent renewals at the mercy of the police officials. The authorities explain that part of the number being expelled are recent arrivals in Kiev, and that the expulsion is an annual occurrence following the customary spring influx of Jews from surrounding localities, who are trying to gain a foothold in Kiev. The authorities add that heretofore many of the incoming Jews have succeeded in gaining a residence through connivance with minor police officials, but that this year strict orders have been given that each case be thoroughly investigated.

CAT AND FLY KILL MAN.
 NEW YORK, May 26.—According to the coroner's announcement today, a cat and a fly were responsible for the death of Edward J. Pratt, a manufacturer of Jersey City. While petting a kitten a week ago, he was scratched on the hand and a few hours later crushed a fly in that hand. Scutiger poisoning, which even amputation of the hand could not check, caused death.

Male's
 GOOD GOODS
 341-343-345 S. BROADWAY

This is a vertical, high-contrast, black and white image. It appears to be a close-up of a textured surface, possibly a book cover or a piece of paper. The left side shows a series of parallel, slightly wavy lines, suggesting a binding or a stack of pages. The right side is dominated by a dark, irregular shape that looks like a shadow or a piece of tape. The overall texture is grainy and uneven, with various shades of gray and black.

PUBLIC SERVICE Courts and Offices.

SUMMARY OF THE DAY.

Boss Lissner ruled the rate-making "hearing" at the city hall yesterday, and they regard the Council as precommitted to the Lissner program.

Henry C. Faulkner, an old miner and prospector, lost his divorce case in Judge Hutton's court yesterday. His wife, Bertha Faulkner, secured the decree and the custody of their child.

Ellen Wyatt brought an action in the Superior Court against Helen K. Lynn, asking \$10,000 damages for the alienation of the affections of her husband, Oscar Wyatt, of Sherman.

Leo H. Klenke alleged, in a suit filed yesterday, that 800 shares of stock of the Sunset Mining Company, said to be worthless, had been unloaded on him. He asks the court for proper relief.

Justice Chambers yesterday issued a ruling with reference to gambling which acts as a setback to the police "Purity Squad."

Dr. Peter C. H. Pahl, assistant manager of the Hospital of the Good Samaritan, pleaded guilty and paid a \$15 fine yesterday for an assault on a newspaper photographer.

AT THE CITY HALL.

LISSNER RULES RATE FIXING.

"HEARING" A FARCE FOR THE COUNCIL TO PERFORM.

Companies' Attorneys Spend the Day Examining Electrical Expert Introduced by the Boss' Board and Throw Up the Sponges in Face of Plain Programs.

Council for the electric lighting companies left the Council Chamber yesterday with the admonition of Lissner ringing in their ears, that his Board of Public Utilities had gone as far as it could this year. Counsel, after the hard day before the expert testimony, wondered how much further Lissner or any one else could go. The Council spent the entire day in hearing the testimony of E. F. Scattergood, electrical expert of the aqueduct bureau, upon whose advice the new schedule of lighting rates was reported by the Lissner board. The witness admitted that his conclusions were based on the annual reports made by the companies to the Council and on his idealization of the furnishing of power.

The concrete result of Scattergood's work was shown in four tables, showing the average selling price reported by the companies, and Scattergood's own estimate, on the present rates, and the selling prices on the 7-cent base advocated by the Council. These tables showed that the cost of the Pacific Light and Power Company would be 2.5 cents per kilowatt hour, the Edison Company, 4.40 cents and the Los Angeles Gas and Electric Company, 4.25. This showing was attacked by H. J. Goudge, attorney for the latter company, on the ground that it would be manifestly unfair to make the same rate for a company that expended 4.25 cents per hour to produce current and one that expended only 2.5. He admitted that the board's report and its own figures gave the Los Angeles company a return of 6 per cent, on the valuation but this valuation included \$24,000 of value reported by the company. Besides the rate, while it yields 6 per cent, to the Los Angeles company, admits a higher rate where the cost of production varied.

Scattergood explained this difference with the statement that the difference in the character of service and manifold other reasons justified a uniform rate where the cost of production varied. An examination of Scattergood on the minutiae of the business occupied Goudge for almost all of the Council's session. It was an inkling of the question and was shared at times by attorneys for the other companies. Affidavits were filed by each showing that the rate reported by the company was correct, and that the deductions from valuation and operating expenses made by Scattergood were unreasonable and resulted in erroneous recommendations.

But the chief thing that stared the companies in the face was the fact, as the attorneys stated, that the "hearing" was wholly prefatory and that the adduction of evidence was a futile attempt to change the committed minds. It appeared all the way through that the Council was prepared to carry out the Lissner board's orders and at the conclusion of Scattergood's testimony each company closed with a short argument without retracting a word of the evidence in effect that the board, without a full examination and without giving the companies a hearing, had made up its mind on the rates and in doing so had arbitrarily omitted valuation and expenses that should have been credited. The arguments were largely perfunctory and would have been funeral but for the interjections of "Uncle Jerry" Andrews, from time to time.

Finally when the "hearing" was over, Gregory moved that the Council take the question under advisement so that the Council could talk to the "engineers and members of the board" before making up their minds.

President Lissner ignored if the Council thought this would be fair to the companies. The suggestion was even too raw for Lissner and he rose to say that whatever was to be presented to the Council should be done in open session. Assistant City Attorney Sherriff, who is the adviser of the Lissner board, told the Council it could examine all that had been submitted in evidence, but that any new testimony should be heard with representatives of the companies present.

Betkouski gave notice he would withdraw his demand for a reduction of the minimum rate from \$1 to 75 cents, giving as his reason that the reduction in the base rate had been so great that it might be wrong to go farther. Having done this he promptly moved that the rates reported by the Lissner board be approved without change. Gregory insisted he was not ready to agree and President Lissner said he wished time to look into some of the figures. O'Brien seconded Betkouski's motion, but all was withdrawn under an agreement to meet this morning at 9 o'clock. Andrews said the meeting would be an "executive session."

O'Brien, who has been irritated frequently by "Uncle Jerry's" guardianship of the Council, leaped to his feet with more agility than he has done since he has had a seat in the Council. He declared he would not par-

ticipate in an "executive session." O'Brien was fearful of another "gentlemen's agreement." President Lissner assured him it would not be an executive session and the meeting was arranged for.

In a speech before closing, Lissner, during that the cross-examination of Scattergood demonstrated the insecurity of theoretical calculations of an idealist, explained that the electrical current sold in Los Angeles was used 90 per cent. for power and 10 per cent. for light. As the power rates were not disturbed the companies could easily recover any possible losses by an increase of the power rates. Seven-tenths of the power is consumed by transportation companies at 6-7 of 1 cent, and the schedule of the board permitted an increase to the Mayor in other words, the light consumers should not pay a profit that the power consumers did not contribute to. This was answered by Attorney Stevens for the Pacific Light and Power Company, which is almost a wholly commercial current wholesaler by the statement that this was a true fact if the power sales showed a loss which had been charged to the light consumers, but he denied that this was the fact and the evidence had been introduced to show it.

Lissner also said, in discussing the Los Angeles company, that this company is also in the gas lighting business and that it furnishes four-fifths of the gas of the city. Lissner admitted that this line of argument was hardly legitimate, but said "he thought it ought to be made."

Before adjourning, the Council adopted a resolution instructing the City Clerk to notify the telephone companies that the report of the Lissner board would be filed today and that the Council will meet at 10 o'clock to "hear" the companies. When asked by President Lissner when the board would report, Lissner said the report would be ready this afternoon, but it would be preferable to hold the hearing in the afternoon, "to give the companies a few hours to examine the report."

The Council has but today and tomorrow to act, as the ordinance must be signed by Mayor and published Tuesday. It might be published Wednesday, June 1, but there is some danger in this. Of course the Lissner board knows what it is doing, or it would not put the Council's action upon the Mayor at the last minute. It is assumed that the Lissner board, in its program by which Lissner intends to penalize the corporations through his office head of the utilities board, will adopt a resolution that their adoption means an attack on them in the courts seems equally sure. It is assumed that Lissner's influence induced Scattergood to withdraw his demands for the 7-cent minimum monthly charge because he feared it would make the already proposed reduced rates without any standing in court.

FIRE INSPECTION.
BUILDING AND THEIR EXITS.
Fire Chief Eley reported to the Fire Commission yesterday that he had ordered all captains in the department to inspect all standpipes and fire escapes on buildings of three or more stories and see that all are constructed, and to report what buildings are not equipped as required by law. Also the captains are to familiarize themselves with the front and rear exits of all buildings in their districts and be prepared for any emergency in handling a building fire.

At his sunding fire the commission will order all downtown fire hydrants painted white. Chief Galloway wanted them painted for the benefit of the firemen, but Eley thinks white better looking and sufficiently identifying. He also recommended that the provision by the Council, to be effective July 1, of two captains, two engineers, two lieutenants and forty firemen, to man the new downtown house at Fifth and Maple streets and another new one at Second and Hewitt streets. In addition the commission will order an aerial truck for the Fifth-street house. The latter will be designed by Engineer Goudge and the Hewitt-street house No. 24.

SAME OLD WAY.
HOSE DEALING ROLLING.
The Fire Commission again heard ten-minute statements from ten hose agents yesterday afternoon. The table was covered with samples of hose, and the eloquence of the salesmen reverberated through the Mayor's quarters. This is one of the idiosyncrasies of municipal business. Every time a city purchases hose the officials deem it proper to hold a public hearing. In no other line of purchasing do the officials submit to such ordeals. The conclusion was a recommendation from the commission that the Council buy 8000 feet of Orval hose at \$1 a foot, 2000 feet of A No. 1 multiple woven at 90 cents, 2000 feet of Baker hose at \$1 and 2000 feet of Paragon at \$1.

The recommendation is purely advisory. It will be signed by the commission to begin roll-rolling with the Councilmen. It is already known that certain agents have friends in the Council and that the usual deal will be made to take care of these friends without much regard for the wishes of the Fire Commission and Chief Eley.

A row over the division of the hose into all sizes and a change in the specifications so that the cheaper grades might be eliminated. The Council yesterday exempted the position of Assistant City Engineer for the Harbor Bureau at the request of the Civil Service Commission. This office will not be filled, in all probability, until the harbor bond issue is financed.

What Howton Wants.
The Health Board met yesterday and hurriedly passed the monthly pay rolls but was caught red-handed by "Doc" Howton, original Good Government candidate for office, who made a speech urging the board to bring about the re-enactment of the ordinance giving special privileges to physicians and ambulances. "Doc" thought physicians should be allowed by virtue of a button, specially provided, to run their cabs and ambulances without paying taxes to many places. The board listened good-naturedly and adjourned, as "Doc" is not famous for his automobiles or ambulances.

ALTORRE TRIAL POSTPONED.
The Altorre case on trial in the United States District Court, was temporarily postponed on account of the sickness of Attorney Thompson, counsel for the defense. Attorney Johnathan, who started out as leading lawyer for the accused, was forced to relinquish his duties on account of sickness, several days being reported by him on a charge of swearing falsely to statements contained in an application for taking a civil service examination.

REMOVAL CASE OF LEVY.
The removal case of Bernard M. Levy, alleged bogus army officer, was continued yesterday for one week. Levy has been serving a term in the local County Jail upon his conviction of a charge of impersonating a United States officer. The San Francisco Federal authorities want him in that city on a similar complaint.

AT THE COURTHOUSE.

WIFE WINS IN DIVORCE SUIT.

AWARDED FREEDOM, ALIMONY AND LITTLE DAUGHTER.

Old Prospector Loses Fight to Retain Wife and Child—Pathetic Incident When Baby Shrieks from Father in Court Because Taught by Mother to Hate Him.

Henry C. Faulkner, a grizzled old miner and prospector, who has sampled the earth in spots from the Oregon line to Mexico, struck another dry hole in Judge Hutton's court yesterday. In his divorce trouble, he had the old man lost his fight in opposing the divorce suit of Bertha Faulkner, who was given a decree, with an additional order that he pay \$100 a month for the support of their child, Marie Faulkner, but there was some consolation for the court allowing him to see the child as often as convenient. That means, judging from his former experience, that there will be more trouble before long, when he seeks to see the baby.

At the close of the testimony a pathetic incident occurred. The little Marie, aged 5 years, has been trained by her mother and grandmother to hate him. Faulkner was stepping down from the stand, and the baby was in the aisle. The father attempted to take it by the hand and press it to his heart, but the child flew away from him and ran to its mother.

The incident struck Faulkner as if he had been hit by the head with a club. He tottered to his seat. He had not expected that from his baby. The court remarked that it was evident Marie had been taught to love its mother more on account of closer association with her, but that was poor consolation for Faulkner.

Attorneys Harriman and Jackson became involved in a loud joint discussion during the examination of Mrs. Faulkner, as to whether or not, in regard to the difference between socialism and anarchy, and it was necessary to pull the watch on them to avoid further disturbance of the atmosphere. Attorney Jackson was trying to show that Mrs. Faulkner's testimony was untrue, and that she was a socialist. He said: "If your honor please," shouted Harriman, "Mr. Jackson has set out in his cross-examination that Mrs. Faulkner is a socialist, not a socialist, but a socialist, I am a socialist myself, but I am not an anarchist; I submit that he is talking about one thing and trying to prove another."

Then Jackson arose and disclaimed any intention of proving the district judge's statement. Mr. Harriman, but he knew socialists were anarchists, and Mayer might be one of them. Harriman sought to interfere with another line of talk, but the court ruled against the introduction of the evidence. The feature of the day was the evidence of the defendant, Henry C. Faulkner, told of his marriage to Miss Mayer in Palestine, Tex., in December, 1904, and while he narrated his marital troubles the tears streamed down his face. He said he had married in the parlors of the Faulkner house. The witness told the story of their marriage, of the birth of their child, and how he had let him within six months of their wedding; how he had turned over all of his money to her and supported her and her two other wives were supported in the mining camps.

"We were against my protest, because my father told her to do so," he wrote to her people that she was happy, but they told her she lied, and she left me never to return," Faulkner said. "Did you ever abuse your wife?" was the question asked by the court as he had composed himself. "I never spoke a harsh word to my wife in my life," he declared emphatically. And he let her into her eyes, as she sat glaring at him, as if to defy a contradiction of the statement.

TO BE APPEALED.
SMITH MARRIAGE MIX-UP.
The decision of Judge Hutton that Minnie Abbott Smith never was the legal wife of Isaiah H. Smith, and therefore not entitled to a divorce, is not to be a finality. It is asserted that number of important witnesses have been found, who are willing to testify that Smith repeatedly introduced to the woman, Mrs. Smith, and his wife to them, together with other testimony calculated to show Smith up in a bad light.

The recommendation is made before Judge Monroe for a new trial, and if denied, the case will be at once appealed to the higher court, one of the attorneys connected with the case declaring that the issue will be carried to the Supreme Court, if necessary, to get a final decision on the question whether a man living with a woman for a long time, and having children, and a wife living with her husband under the laws of California, regardless of the fact as to whether a ceremony has been performed between them, is a married man. It is well understood that the Keating heirs are behind this final fight, and that the case will be carried to the Supreme Court, if necessary, to get a final decision on the question whether a man living with a woman for a long time, and having children, and a wife living with her husband under the laws of California, regardless of the fact as to whether a ceremony has been performed between them, is a married man.

CHANCE TO EXPLAIN.
DIVORCE CASE HALTED.
A question, rather delicate in its nature, but universal in its interest, was before Judge Hutton, yesterday, in the divorce suit brought by Percy B. McGaffey against Ida McGaffey, in which the plaintiff, after a long and bitter fight, was asked to explain why he should be allowed by virtue of a button, specially provided, to run their cabs and ambulances without paying taxes to many places. The board listened good-naturedly and adjourned, as "Doc" is not famous for his automobiles or ambulances.

ALTORE TRIAL POSTPONED.
The Altorre case on trial in the United States District Court, was temporarily postponed on account of the sickness of Attorney Thompson, counsel for the defense. Attorney Johnathan, who started out as leading lawyer for the accused, was forced to relinquish his duties on account of sickness, several days being reported by him on a charge of swearing falsely to statements contained in an application for taking a civil service examination.

REMOVAL CASE OF LEVY.
The removal case of Bernard M. Levy, alleged bogus army officer, was continued yesterday for one week. Levy has been serving a term in the local County Jail upon his conviction of a charge of impersonating a United States officer. The San Francisco Federal authorities want him in that city on a similar complaint.

FEELS PEEVISH.
STOCK DEAL IN COURT.
The old and familiar story of alleged false pretense and fraud is told in the complaint filed by Leo H. Klenke against Benjamin K. Hall, et al., in the Superior Court, yesterday. The plaintiff says that in October, 1908, Hall informed him that he could obtain a fine position for him with the

Sunset Mining Company, paying at least \$75 a month, but that it would be necessary for him to become a stockholder in the company.

In order to prove his friendship for Klenke the defendant would exchange 800 shares of the capital stock of the Sunset Mining Company, with Klenke for 2000 shares of the capital stock of the Imperial Coal and Coke Company. Klenke said that he had been told that the stock of the Imperial Coal and Coke Company was worth \$1000, and the lot ought to bring \$1000. This Hall said would make Klenke a stockholder of the Sunset Mining Company, and the job that would follow might be worth the most \$100 a month, with the extra that he could easily make.

Klenke says he implicitly believed what Hall had told him; turned over his coal and coke stock, and gave him a deed for the lot. The 2000 shares of the Sunset Mining Company were transferred to the plaintiff, but about a week later Klenke awoke to the fact that Hall had failed to give him the job that was a part of the agreement, and he asserts that the stock of the Sunset Mining Company is worthless. The plaintiff asks that he be decreed the owner of the lot in question; that Hall be required to return to him 2000 shares of the Imperial Coal and Coke Company, and such other relief as the situation may warrant.

ALLEGED AFFECTION.

A suit for alleged affection of a husband and a prayer for \$10,000 damages, was filed in the Superior Court, yesterday. Ellen Wyatt is plaintiff and Helen K. Lynn defendant, both ladies of the same name and state. Wyatt and Oscar T. Wyatt were married May 22, 1886, at Jacksonville, Ill., and up to the time the defendant came into their married life everything was harmonious.

The petition alleges that on October 1, 1909, and continuously since that date in Los Angeles and Santa Monica, the defendant has willfully contrived to induce the plaintiff by depriving her of the company of her husband, and alienating his affections for her to the extent that Judge Davis's court for nearly two years the defendant has cared for the husband of the plaintiff, loaned him money, and on the night of February 28, last, occupied a room with him in the Jasmine rooming house in Los Angeles.

The statement is further made that up to November 1, 1907, the plaintiff knew nothing of the affection of her husband for the defendant, and in implication is strong that if she had been acquainted with the situation sooner she might have acted with more celerity.

MURDER CASE ENDS.

CIRCUMSTANTIAL EVIDENCE.
The evidence and arguments of the case in which Juan Miranda is charged with the murder of Cetone Robles, on Mateo street, January 18, last, on trial in Judge Davis's court for nearly a week, were completed last evening. The court will charge the jury this morning at 9:30 o'clock.

The allegations against Miranda is that he killed Robles by striking him on the head with a brick, but the evidence against the man is of the most circumstantial character. In the opinion of the jury, the testimony is of the most incriminating character. The body of Robles was found in the house of Louis Manriquez, where a party of Mexicans were assisting Manriquez to remove his belongings. The body was found in the house of Manriquez, where a party of Mexicans were assisting Manriquez to remove his belongings. The body was found in the house of Manriquez, where a party of Mexicans were assisting Manriquez to remove his belongings.

VALUE FIXED.
In the action brought by the San Rafael Ranch Company to prevent the sale of the Pasadena Golf Club Association property to the Annandale Country Club Association, Judge Monroe has determined the value of the Pasadena Golf Club property was \$200,000, instead of \$300,000, as was alleged by some of the stockholders of the Pasadena Golf Club. It is not expected by the Pasadena association had the right to the property, and the court has allowed the attorneys until August to furnish briefs on that point.

DATE FOR CONTEST.
The date for the hearing of the contest instituted by the heirs of the late Thomas P. Rives against the estate of the late Thomas P. Rives, was set for June 8 by Judge Rives.

EXPERTS ON STAND.
The day's proceedings in the damage suit brought in behalf of Emma C. Ser Vls against her brother-in-law, Charles A. Ser Vls, against the Pasadena Golf Club Association, consisted of the testimony of experts of expert evidence furnished by the medical fraternity, pro and con, on the question whether the injuries alleged to have been suffered by Mrs. Ser Vls could have been produced by the attack made upon her by the defendant. The testimony closed, and the argument will begin this morning.

FINAL ACCOUNT DESIRED.
A petition was filed in the Probate Court yesterday for the final account and distribution of the \$20,000 estate of William James Carthers, that has been in litigation for some years. The hearing of the petition will be had June 8, at 10 o'clock. The petitioner, Della Carthers, is the applicant. Under the will she was named as executrix and the entire estate was bequeathed to her, with the exception of a half interest in a lot and storehouse building at Table Grove, Ill., which was left to Minnie Huxley, a sister. After the filing of the will in October, 1906, and its subsequent admission to probate, a contest was instituted by the relative of the testator, Della Carthers, who won the case before the jury in the Superior Court. The matter was then appealed to the State Supreme Court, and the case was then dismissed.

WOMAN CHARGES FORGERY.
J. F. Ormsby was arrested yesterday by Constable Rice on a charge of forgery preferred by Emma G. LaBelle. He did not furnish \$2000 bail and went to the County Jail to await a hearing on June 8. Miss LaBelle alleges that he forged her name on an assignment of her interest in a diamond ring to avoid being compelled to return it to her.

HE'S WANTED IN ILLINOIS.
Harry W. Hudson was arrested by the Sheriff, yesterday, on a charge of forgery, at the request of the Decatur, Ill., authorities. Sheriff B. A. McCorrall of Macon county telegraphed that he would leave immediately for the Coast with requisition papers.

NEARLY THE SAME.
Allan Falconer, a printer of this city, filed a voluntary bankruptcy petition in the United States District Court yesterday. His stated liabilities are \$3064 and assets \$3829.

THAT POLISH DEED.
Judge Houser yesterday decided the action

Assets \$2,475,000

There Must Be a Reason

The constant and remarkable growth of the Equitable Savings Bank has become a matter of comment.

The reasons for this healthy growth are:

1. It is strictly a Savings bank, following closely along the lines of the Massachusetts Savings Societies, strong, conservative and progressive.
2. The Board of Directors is composed of men so well and favorably known that they have the confidence of the community.
3. The Equitable Plan of COMPUTING INTEREST ON A MONTHLY BASIS, and under normal conditions of allowing withdrawals without notice, has gained the Equitable a place of its own for fair dealing.

Four per cent. paid on Savings Accounts from date of deposit, computed monthly.

Three per cent. paid on Savings Accounts with checking privilege, computed monthly on minimum balance in excess of \$300.00.

SUIT FOR TAXES.
The Kern River Company brought a suit in the Superior Court yesterday against the county of Los Angeles for \$788.12, alleged to have been paid illegally as taxes on the property of the plaintiff corporation. The old question of the taxation of franchises is raised in the complaint.

CONTEST POSTPONED.
The contest involving the validity of the will brought by Mary Aubrey Kent was postponed in Judge Rives's court yesterday for one week. The amount involved is about \$10,000.

SETTLED OUT OF COURT.
The damage suit brought by R. A. Dean against the Pacific Electric Railway for damages following injury as the result of a collision on the line between Pasadena and Los Angeles, January 28, last, was settled in Judge Moore's court for trial yesterday, by a settlement of the claim was made by the defendant company and the case was stricken off the calendar.

BURGLARY PROVED.
A jury and Judge Willis heard the testimony yesterday in the case against E. J. Donnelly, who is charged with burglary. The hearing was delayed on account of the scarcity of jurors, and the case was postponed for one week. The amount involved is about \$10,000.

DATE FOR CONTEST.
The date for the hearing of the contest instituted by the heirs of the late Thomas P. Rives against the estate of the late Thomas P. Rives, was set for June 8 by Judge Rives.

Miss LaBelle alleges that he forged her name on an assignment of her interest in a diamond ring to avoid being compelled to return it to her.

HE'S WANTED IN ILLINOIS.
Harry W. Hudson was arrested by the Sheriff, yesterday, on a charge of forgery, at the request of the Decatur, Ill., authorities. Sheriff B. A. McCorrall of Macon county telegraphed that he would leave immediately for the Coast with requisition papers.

NEARLY THE SAME.
Allan Falconer, a printer of this city, filed a voluntary bankruptcy petition in the United States District Court yesterday. His stated liabilities are \$3064 and assets \$3829.

Assets \$2,475,000

There Must Be a Reason

The constant and remarkable growth of the Equitable Savings Bank has become a matter of comment.

The reasons for this healthy growth are:

1. It is strictly a Savings bank, following closely along the lines of the Massachusetts Savings Societies, strong, conservative and progressive.
2. The Board of Directors is composed of men so well and favorably known that they have the confidence of the community.
3. The Equitable Plan of COMPUTING INTEREST ON A MONTHLY BASIS, and under normal conditions of allowing withdrawals without notice, has gained the Equitable a place of its own for fair dealing.

Four per cent. paid on Savings Accounts from date of deposit, computed monthly.

Three per cent. paid on Savings Accounts with checking privilege, computed monthly on minimum balance in excess of \$300.00.

EVENTS IN LOCAL SOCIETY.

IN A ceremony picturesque with military features Miss Beatrice Banning Ayer, daughter of Mr. and Mrs. Frederick Ayer of Boston, Fifteenth United States Cavalry, of San Gabriel, were married at St. John's Church, Beverly Farms, Mass., yesterday afternoon.

Rev. George A. Gordon of the Old South Church, Boston, performed the marriage and there were present many friends and relatives from Los Angeles, St. Paul, Virginia, New York, Washington and Boston, a special train conveying them to Beverly.

Miss Ayer, fair and slight, made a charming bride in the gown worn by her mother when she was married twenty-five years ago. Her younger sister, Katherine, was maid of honor, and the bridesmaids were Miss Anne

last evening. The affair was at the home of Miss Dodson's mother, Mrs. N. Dodson of North Bunker Hill avenue. There was a comet contest, and prizes fell to Foster M. Blythe and Miss Bowen. The guests were Miss Florence Clark, Miss Elsie Barr, Miss Pauline Barr, Miss Bailey, Miss Leonard, Miss Higman, Miss Thomas, Miss Metzger, Miss Bower, Miss Gaudin, Miss Charlotte Clark, Miss Jerome Race, Mrs. Leonard and Messrs. Ruby, Blythe, Harris, Nelson, Brookmiller, Plain, Foster, Talbot, Chapman, Adams, Corvill, Lark, Thomas Harris and Charles Dodson.

To Receive.
Mrs. Chauncey L. Higgins of No. 2525 West Ninth street will be at home informally this afternoon from 1 to 5 o'clock.

Home Again.
Mrs. M. A. C. Griffith of West Seventh street has returned from a delightful outing at the Arrowhead Hot Springs.

To Visit Parents.
Mrs. Fred A. Stephenson and little daughter, Helen, of No. 1412 Albany street left this week for her old home in Mexico City, where she will be the guest of her parents, Mr. and Mrs. Daniel B. Nicholas. Mrs. Stephenson will also visit her sisters, Mrs. Mark B. Katze and Mrs. Natcho Galvin. Mr. Stephenson will leave June 4 for the East and will return by way of Mexico, where he will join Mrs. Stephenson. They will make the homeward journey together.

Approaching Wedding.
Of interest to many friends in this city and also Santa Barbara is the approaching marriage of Miss Margaret K. Conway and William M. Curran, which will take place next Wednesday morning at 8 o'clock in St. Joseph's Church.

Miss Conway is a daughter of Mrs. Mary E. Conway of Fifteenth street.

Friends are planning many pre-nuptial affairs for the bride-to-be. The wedding will be a simple affair.

At Hotel Virginia.
Among the Toledo, O., people who are now at Hotel Virginia, Long Beach, for a lengthy stay, are Dr.

Miss Margaret Conway, whose wedding to William M. Curran will be solemnized Wednesday.

Patton of San Gabriel, Miss Katherine Banning of Los Angeles and Miss Rosalind Wood and Miss Helen Longyear of Boston.

The bridegroom was in the full dress uniform of his rank as were the officers who served as ushers. This gave an unusual dash of gold braid, which was interesting.

At the conclusion of the ceremony when the bride and groom turned to leave the altar, the ushers drew their sabers and formed an arch under which the bridal couple passed. Then the ushers returned their sabers and escorted the bridesmaids from the church. The scene was rendered particularly effective by Mendelssohn's wedding march which was played upon the organ.

Following the ceremony there was a reception at Avalon Hall where the bride's parents stood at the entrance to welcome the guests. Music was a feature of the reception. Twenty-five musicians rendered various airs while refreshments were being served.

Honeymoon Motor Tour.
Though only relatives and a few friends have been bidden to the wedding of Wanda R. Woolwine and Mrs. Vinneta Begg, which will take place Wednesday next at the home of Mrs. Begg's mother, Mrs. J. Irving Riddle of No. 400 Westlake avenue, it will be of wide interest. Mr. Woolwine is president of a local motorcar company, and has many friends in this city and the South where he was born. Mrs. Begg shares the popularity of the groom-to-be and the affair is truly interesting. A breakfast will follow the service and Mr. and Mrs. Woolwine will leave in a motor car for a month's tour. Upon their return they will reside at No. 519 North Broadway.

Literary Club.
Members of the Seven-Seven Literary Club entertained with a luncheon Wednesday at Christopher's in honor of Miss Martha Alford who will leave soon for her former home in Pennsylvania. The table was beautifully decorated with red carnations, the club flower, and places marked with unique cards were laid for Mrs. Whitehead, Mrs. Cowles, Mrs. Carr, Mrs. Keniston, Mrs. Grey, Mrs. Rigger, Mrs. Tudor, Mrs. Elder, Mrs. Parker, Mrs. Crockett, Mrs. Wadsworth, Miss Alford, Miss Lettelle, Mrs. Sparling and Mrs. Ford.

To Entertain.
One of the most elaborate affairs of today will be the reception presided over by Mrs. J. Bon-Henrich at her beautiful home, No. 1401 Albany street from 2 to 5 o'clock. About 400 invitations have been issued and the receiving ladies will be Mrs. J. N. Van Nuy, Mrs. Hugh Livingston MacNeil, Mrs. C. C. Carpenter, Mrs. F. J. Carlisle, Mrs. Irving Ingraham, Mrs. W. F. Botchford, Mrs. E. F. C. Klokke, Mrs. George J. Birkel, Mrs. West Hughes, Mrs. J. T. Fitzgerald, Mrs. Samuel Kennedy, Mrs. Dean Mason, Mrs. J. J. Byrne, Mrs. Frank Walker, Mrs. A. N. Francisco, Mrs. T. W. Okey, Mrs. E. Pemberton, Miss Katherine Edson, Miss Echo Allen, Miss Helen Klokke, Miss Marion Macneil, Miss Annie Van Nuy, Miss Kate Van Nuy and Miss Mollie Adella Brown.

Engagement Announcement.
Formal announcement is made by Mrs. B. Aye of No. 1330 West Twentieth street of the engagement of her daughter, Miss Lila to Louis F. Nihrent. The wedding will take place on June 2.

Interesting Wedding.
Yesterday afternoon at the home of the bride's parents, Mr. and Mrs. J. Lindman of No. 4206 Woodlawn avenue, the wedding of Miss Agnes V. Lindman and Ray F. Copelin, a young business man of this city, took place. The bride wore a handsome gown of gray material and carried a shower of white carnations. Rev. E. C. Cory of the Vincent Methodist Episcopal Church read the service, following which a luncheon was served. The bride's table was radiant with white blossoms and maidenhair ferns. At the conclusion of a brief trip Mr. Copelin and his bride will be at home at No. 42 Navy street, Ocean Park.

Returns Home.
Mrs. Rose Erlanson, a young matron from St. Paul, Minn., who has been the guest two months of Mrs. Theodore Mills of No. 266 North Fremont avenue, has returned to her home.

To Your Europe.
Miss Alice C. MacFarland of West Twentieth street left last week for a tour through Europe. Miss MacFarland will be away about six months, in which time she will visit among other places, Spain, France, Italy and Germany. She will sail from New York Saturday.

Surprise Party.
Friends tendered a pleasant surprise party to Miss M. Dodson, in celebration of her birthday anniversary,

States Land Office at Washington, which provide that innocent purchasers of desert entry assignments in the Imperial Valley shall be protected in their rights, even though the original entry may be fraudulent. It seems to have no appreciation of the fact that our government aims to deal justly by its citizens. He takes a parting shot at the owners of the Blythe ranch, as follows: "It might be that the main source of opposition is inspired by parties swining, promoting a water scheme by which they hope to compel settlers to purchase water rights at \$5 per acre and an annual tax of \$4 or \$5 more, he sets up a 'man of straw' and pommels him most unmercifully, and imagines he is fooling the people. He closed his remarkable letter in this wise: 'Such a scheme might be worked if the land is occupied by settlers, but would not be tolerated under State ownership.' Say! how about this any day, Mr. J. H. L.? You people say you have 'sixty-five' applications filed with the Surveyor-General of the State to purchase these lands, and you are for being 'put next' to an imaginary chance to buy lands actually worth \$40 or \$50 an acre for a paltry \$1.25 an acre without any settlement, further expense of any kind.

Now are these people dupes? or are they dummiest? Of course, it is a manometer to speak of the State of California as having anything to do with this iniquitous proceeding, but we will let that pass. For instance, that the 'State' should win, will these applicants get the land they applied for? And if so, how long would the ownership remain with the State? Everybody knows that the land would be taken up just as soon as the papers could be made out. It would not last twenty-four hours, then where would your State ownership be? Candidly, however, it is very doubtful if these alleged filings are of any value at all, or if the applicants would have any right to purchase on account of these filings.

One thing, however, is certain, J. H. L. and his pals will take care of all the money these 'sixty-five' have paid or that they may yet be induced to pay. The 'sixty-five' will probably have a very hard time before they get through with you. Possibly the State might be induced to retain the ownership of these lands indefinitely. Just to keep those wicked Blythe ranch people, who have bought their lands in good faith, from charging everything they can get for the acre for a water right, and an additional \$4 or \$5 every year thereafter. Come again, Mr. J. H. L. 'Deed-lighted' to see you any time.

Yours truly,
S. D. RANDEL.

Anent the Comet.
PASADENA, May 25.—(To the Editor of The Times): An explanation of the cause of a comet's tail which may throw light upon the vagaries of the tail of Halley's comet.

The general understanding of the current theory is that the tail of the comet is formed of finely committed particles which are made luminous by their combustion. The theory that meteors are invisible while passing through ether and become visible when entering the earth's atmosphere, the friction with the air causing fire and comets and luminousness, would seem to eliminate the present theory of the visibility of the comet's tail.

It is not the tail of the comet, the sun's rays made luminous by their being broken by their interception by the particles of the comet? This would explain the bifurcated appearance of the tail since it appeared in the head intercepting all the sun's rays and causing the dark center of the tail, the two branches being composed of more intercepted rays than are on the side nearest and farthest from our point of view.

The comet's right when "the sun draws water" when behind a cloud would seem to furnish a good sample of the tail phenomena, the appearance of rays below the cloud being caused by the intercepted rays of the sun by the loose particles of moisture in the cloud, while the more solid portions intercept it entirely. The fact that a comet's tail is always pointing away from the sun seems to favor the above theory.

Ellysian Park.
LOS ANGELES, May 24.—As a resident of Southern California and a frequent visitor to Los Angeles, I have taken an interest in watching the development of the various city parks.

There is one matter in regard to Ellysian Park to which I wish to call your particular attention and that is to the neglect of the beautiful trees which I note are dying, after having been cared for during fifteen years.

Why, may I ask, is much money being frittered away in Central Park (it now being in process of absolute change), when a whole forest of fine trees is allowed to die in the most attractive park you have?

The writer sincerely wishes your reporter could visit Ellysian Park and note for himself the utter neglect of the forest.

A little care, work and water would save all of those beautiful trees.

J. C. JACQUES.

How to Keep Wicker Furniture Clean.
One of the biggest troubles with wicker furniture is to keep it looking clean and bright. Once the dust and dirt settle in the crevices of the wicker-work, it looks dingy and shabby. However, an easy way to restore the brightness to this sort of furniture, is to wash the canework with hot suds made by dissolving a tablespoonful of Gold Dust washing powder in a pail of water. Apply the suds with a sponge until the cane is thoroughly soaked and leave in the fresh air until dry. This is also a good way to restore the color and elasticity to cane-seated chairs.

Globe Savings Bank

COMMERCIAL DEPARTMENT

PAID UP CAPITAL \$200,000

337 SOUTH HILL STREET

Los Angeles, Cal. May 21, 1910.

This is to certify that this bank holds a fund valued at \$41,677.88, to be used solely for the protection from loss by any stockholders in the Los Angeles Investment Company who have purchased from the company not over \$500.00 worth of stock, should they desire to sell said stock. This fund is invested as follows:

Bonds of Public Utilities	\$ 8,876.67
Secured Loans	19,924.62
163 shares L. A. Investment Co. stock	513.45
Cash	15,663.14
Total	\$41,677.88

This fund was donated by the officers and old stockholders of that company, but its management rests wholly with the officers of this bank.

GLOBE SAVINGS BANK,

By

Robert M. More
Cashier.

The above statement from the Globe Savings Bank indicates two things:

1. How the small stockholders of this, the

Largest Co-Operative Building Co. in the World

are protected against loss, in the sale of their stock, and

2. Tow this Guarantee fund is growing, having increased from \$29,085.17 to the above amount within the last four months. The aim of the company is to increase it to \$100,000.00.

All stockholders in this Company share in all profits of the Company, including the big real estate profits. Dividends are paid every three months upon stock, whether paid in full or bought upon payments.

No one has ever failed to receive his money back upon demand.

No commission paid to anyone for selling stock.

Stock now on sale at \$3.15 a share, which price will be increased to \$3.20 a share on June 1, and to \$3.25 a share on July 1.

\$1.00 will open a stock account. You can subscribe for five or more shares, up to one thousand, pay cash or pay balance weekly or monthly.

A BARGAIN EVENT

We have decided to remodel our store, and we will fit it up with all the newest ideas in shoe store fittings, so as to handle our growing business to better advantage to ourselves and more particularly our customers, and we intend to make it to your advantage to buy your shoes at Hamilton's if you are not already doing so. We have had 16 years' experience in Los Angeles and know what the people here need in the shoe line.

We are offering you in this sale, not just the old style shoes which we intend to discontinue, but all the newest things in footwear. Our buyer has just returned from the East, where he purchased thousands of dollars' worth of the newest creations in footwear shown in New York and Boston, and all these are included in our sale at big reductions.

We include these new shoes because we want to have the smallest possible stock on hand to handle, when we remodel, and are willing to give you the advantage of our big buying ability. This is your opportunity to get the newest style of high-grade shoes at bottom prices.

FACTS. FEATURES.
FACIES.
FOR COME.

BY OLIVE GRAY.

It is certainly an opportunity to buy pretty ready-to-wear dresses at very little cost. Some are in the round yoke effects, and I heard a lady say that she had a way of using her last year's lingerie as yokes. This seemed to me a good plan. It is usually the sleeves or some place on the lower part of the blouse that wears out, and the yoke and collar is perfectly good. When the warm season is really upon us, we shall need pretty fresh, clean dresses and these inexpensive ones will answer every purpose. I would never waste my time in making them, when they can be purchased so cheaply.

Fashion's Fancies.

Many of the coats to suits, short coats for separate wear and long traveling coats of light weight fabrics are attractively lined with figured foulard, usually of blue and white.

In place of the narrow stitching characteristic of the short glove of last season, the long silk glove now worn has wide embroidery on the back in self-color or in black.

So popular is the frill of plaiting at the left of the front of the shirtwaist that blouses which fasten in the back are given this closing effect by means of dainty accessories.

The prettiest "fad" in Paris is the blouse with the chiffon with dainty ribbon roses set in to wear over a tailored suit with a collarless blouse. It is soft, crisp and becoming to the face.

A very unique trimming shows tinsel cord balls, strung on heavy soutache, knotted at intervals. This is especially fashionable as an edge, as it simulates the ball fringes without being pendant.

The jabot is a long frill and gives length; the rabat is a flat little tab which lends an air of doctrinal severity to the prettiest face; the plisse is the side frill, the most popular of all this summer.

Little girls are wearing hats that have departed from the simplicity that has been so popular. A mass of lace and frills crown little ones' heads, no matter how plain the coat and dress may be.

Not only is the Chantrelle coloring seen in everything, in hats, coats and suits, but the form of the bird is also appearing. The latest device in the form worn very black, in a fine mesh face veil.

Motor bonnets are exceedingly picturesque. Straws designated as tulie and as soft, pliable and light as the name indicates are used to drag charming turbans of the Sultana type which are excellent for motoring.

While the white lingerie or tailored waist is for strictly tailored skirts and coats for ordinary wear, the waist to be used for the dressy suit must match the latter in color and to be perfect should be on the "velled" order.

TO PROSECUTE.

DISTRICT ATTORNEY'S OFFICE IS
BESIEGED BY WOMEN.

Law Making It Felony for Husband to Desert His Wife Used as Handle by Many of Them to Get Revenge. Cases Where Complaints Have Resulted in Good.

Probably no law ever passed had a greater effect on criminal prosecutions than has the act of the Legislature making wife and child desertion a felony, that went into effect little more than a year ago.

From the moment the statute became effective, wives have besieged the members of the District Attorney's staff, seeking to have their spouses put in jail for their alleged neglect.

The complaints have multiplied as the provisions of the act have become more generally known, until more men are now prosecuted for this offense than for any other felony on the statute books. Three such charges were filed by Deputy District Attorneys yesterday and half a dozen women, who asked to have their husbands taken in custody, were turned away, because their causes were not deemed worthy of official notice.

So great have become the demands of the members of the gentler sex that the District Attorney's deputies do little beside look after their own cases when they are called upon.

Whether the women are taking an unfair advantage of the law which was drawn for their protection, or they have merely seized upon a chance to avenge long-suffered wrongs, is a question which is perplexing prosecutors and court officials.

It is true that many men have been justly punished since the law has been enforced. But the majority of the cases never come to trial in the Superior Court. A compromise is usually effected at the preliminary hearing. The magistrates in most instances prefer to allow the man his freedom so that he can support his family, which he is compelled to promise to do before he is released. In other cases the men choose to settle the affair through the courts.

Justice Summerfield, before whom most such cases are taken, suggests that the statute and the Roosevelt race suicide theory go hand in hand. His opinion is that men will not rush in where "angels" fear to tread.

"The law is a good one, but has been the subject of more abuse than probably any other statute in this State," he said yesterday. "In many cases, if a husband does not furnish enough money for fancy dresses, the woman rushes out for a warrant. It is a dangerous weapon if improperly used and it is a great problem for the District Attorney to know when to refuse such complaints. However, there are many cases where it has done a great deal of good. It is often a pretty good cure for a drunken husband. If he is released, he is a sort of a temporary probation, with provisions that he straighten up and take care of his wife, he frequently does so. He is afraid of the charge which is held in abeyance."

W. Stratton was arraigned before Justice Ling, yesterday, on a charge of having failed to care for his wife and family. He was released under \$250 cash bail for appearance today.

Similar charges were filed against Archie Gamble, William L. Longuevan and Rollin A. Kramer.

Mrs. D. K. Edwards,
new president of the Y.W.C.A., elected yesterday.

WOMEN GIVE
LONG SERVICE.

Y.W.C.A. BOARD OF MANAGERS
ELECTS NEW HEAD.

Woman Who Held Office of President for Fifteen Years, Resigns and Is Given Honorary Title—New Members of Board Chosen at the Gathering Yesterday.

The Young Women's Christian Association yesterday elected a new president, in the person of Mrs. D. W. Edwards, who for a number of years has been one of the vice-presidents, and head of the Social Department. Mrs.

Mrs. Frank A. Dewey,
head of the Y.W.C.A. for fifteen years,
who resigned yesterday.

Edwards is now making a tour around the world, in company with her husband, and will not return until about September 1. Mrs. Dewey, who held the presidency will be filled by Mrs. Giles Kellogg, the business vice-president.

For fifteen years, covering the early struggles of the association and its final magnificence, leap into greatness, the office of president has been held by Mrs. Frank A. Dewey, a most faithful and efficient officer, but she determined that her service to the association, during this long period, now entitled her to relief, and she presented her resignation to the Board of Managers yesterday, in recognition of her splendid service, and as expressive of the feeling of the board toward her, she was at once elected to the honorary position of president-emerita, and the following resolutions offered by Mrs. W. C. Patterson, were adopted:

Whereas, Mrs. Frank A. Dewey has so faithfully and loyally shown her devotion to the Young Women's Christian Association by many years of unselfish and consecrated service, and

Whereas, after having for fifteen years filled the office of president of the said association with ability and distinction, she now of her own volition and desire, wishes to retire from the strenuous duties and responsibilities of the presidency, therefore, be it resolved, that Mrs. Frank A. Dewey, be and she is hereby elected President Emerita of the Young Women's Christian Association of Los Angeles, California; and be it further resolved, that the President Emerita of the association shall be entitled and have the privilege to attend all board and committee meetings and to enjoy all the privileges and courtesies which she has so richly merited by her long and efficient efforts in behalf of the association.

Mrs. Z. D. Mathus, a member of the Board of Managers for many years past, and who is also making a tour of the world at this time, asked that she be relieved, in order that she might enjoy the rest and a vacation of travel. She was chairman of the Building Committee, and has been active and

If You Buy Your
Piano
Here
Now
During Our Pre-
Alteration Sale
You Can Have Your Cake
and Eat it, Too, (Most of it)

The sale is in full swing, day and night, during this week? You need the piano, we need the room. Why not settle the piano question now, as scores of others are doing?

When have you seen pianos you could not tell from new ones, thoroughly reliable, guaranteed, exchangeable, veneer cases, ivory keys, etc., at \$175.00; miscellaneous sample pianos at \$220.00 and up; pianos slightly scarred or show worn, reduced \$75 to \$100.

The tie-in effect has been made. You intend to buy something, you put the matter off. It isn't settled. You intend to buy something, you put the matter off. It isn't settled. You intend to buy something, you put the matter off. It isn't settled.

OPEN EVENINGS THIS WEEK.
The Wily B. Allen Co.
416-418
South
Broadway

efficient in all the affairs of the association, and in recognition of her services, she was elected an honorary member of the Board of Managers, and complimentary resolutions offered by Mrs. G. H. Wadleigh, were adopted.

It is a remarkable fact that, in this city of changing conditions, there are several women who have served on the board continuously during the seventy years of its existence, and to this fact is attributed much of the success of the organization. Among them is Mrs. W. C. Patterson, who has been the treasurer during that long period.

Mrs. N. S. Averill, an old and valued member of the board, in summing up the felicitations, yesterday, said: "Not a single break was occurred during all these years to mar the harmony and love and we have reason to congratulate each other and ourselves."

Other officers elected were: Vice-presidents, Mrs. W. J. Hole and Mrs. Giles Kellogg; religious work representative, Mrs. E. J. Marshall; educational department, Mrs. E. R. Smith; extension department, Mrs. G. H. Wadleigh; recording secretary, Mrs. Kate S. Vosburg; corresponding secretary, and treasurer, Mrs. W. C. Patterson.

Three new members were added to the board, Mrs. C. A. Parmelee, Mrs. Robert Watchorn and Mrs. William Carey Marble. The entire board now consists of: Mrs. A. S. Averill, Mrs. William H. Barnard, Dr. Gail B. Butler, Miss Grace Barnes, Mrs. H. W. Brodbeck, Mrs. S. D. Burks, Miss Sue Bargwell, Mrs. W. J. Chichester, Mrs. G. E. Dalton, Mrs. Frank A. Dewey, Mrs. D. K. Edwards, Mrs. C. E. Gallagher, Mrs. Jefferson D. Gibbs, Mrs. E. F. Hill, Mrs. J. Hole, Mrs. Gail B. Johnson, Mrs. Milbank Johnson, Mrs. Giles Kellogg, Mrs. Homer Laughlin Jr., Mrs. E. J. Marshall, Mr. Leonard Merrill, Mrs. H. W. Mills, Mrs. T. F. Miller, Mrs. William Carey Marble, Mrs. W. C. Patterson, Mrs. L. Phillips, Mrs. C. A. Parmelee, Mrs. L.

ESMOND'S

Cor. Third and Spring Sts.
Douglas Building

YOU men who want clothes, and who want the greatest possible value for your money, will find affairs of extraordinary interest to you now going on here. You'll find the right goods for your money; you'll find them in the right store; and you'll find that we have the right way of selling them.

You can now get a Spring Suit at a very low price. We've marked over 500 of them that have been \$25 and \$20 at

\$14.75

It's a very unusual opportunity, this early in the season, to be able to buy such clothes at such a price. They're Kuppenheimer's and other good makes. When you think of quality in clothes think of our better grades, \$30, \$35, \$40; they're worth thinking about. Twenty new models for men; eight new models for young men. They're late, new, best \$30, \$35, \$40. See our window display.

Blue suits of extraordinary merit at \$25; they're made of the famous Hockanum weaves, the best American product in fabrics for men's clothes. A good many of these suits are silk lined, self-striped, plain serges, rough weave blues; three or four different shades; in models for men and young men. These suits are such as usually sold at \$35; we're selling at \$25.

STEARNS CATCHES THE FIRST LEAPING TUNA OF SEASON.

(BY DIRECT WIRE TO THE TIMES)

AVAILON, May 26.—(Exclusive Dispatch by Wire.) Amid applause from excited anglers, Col. John E. Stearns of Los Angeles this evening brought to dock a monster tuna weighing 146 1/2 pounds. This is the first tuna caught here this season. The battle between angler and fish lasted one hour and forty-five minutes. Capt. George Farnsworth acted as boatman to the angler. Never in the history of the Tuna Club has such enthusiasm been manifested at this season of the year. "It is the most perfect specimen I have ever seen of this variety of fish," said T. S. Manning, secretary of the Tuna Club, after he had officially weighed the catch. Immediately the launch Mable was seen entering the bay of Avalon flying the well-known tuna flag, the little craft and its passengers were greeted with cheers from all the boats in the harbor. Scarcely had the fish been weighed before a number of anglers were making preparations and securing boatmen, many intending to fish all night. Trolling with a flying fish this afternoon off Long Point, Stearns and his party entered the large school of tuna. Any of the fish leaped clear out of the water. The first one hooked by the angler snapped the line. The school was estimated at several thousand.

SKULL FRACTURED.

WITH HAMMER MAN TWICE SMITES TENANT ON HEAD.

DURING an altercation arising over the posting of a notice on the door of the flat occupied by B. Hardy, No. 482 West Sixteenth street, San Pedro, yesterday morning, Hardy was struck twice on the head with a hammer wielded by R. C. Shimer, the owner of the property. The skull was fractured. Shimer was lodged in the County Jail, without bail, pending the result of Hardy's injuries.

Shimer, who lives in a flat at the above address, called on Hardy to collect the rent which was due May 16. When it was not forthcoming, he ordered Hardy to leave the premises. The latter said he should have thirty days' notice, and Shimer proceeded to

knock him down.

To land a tuna under the rules of the Tuna Club, the fish must be brought to gaff by an angler unaided, upon a 24-strand line and a rod weighing not over 16 ounces; a broken rod, before or after gaffing, will disqualify the catch.

The tuna is a species of the horse mackerel and is considered by all anglers the king of game fishes. The largest ever taken in these waters was landed by Col. O. P. Moorhouse of Pasadena, in 1899, weighing 251 pounds.

To celebrate his catch of today a banquet was served to the members of the club at the Metropole.

Camp Albert, Catalina, new, modern and elegantly furnished. Now open.

KNIGHTS TEMPLAR INSTALL.

With music and beautiful scenic effects the installation of officers of Los Angeles Commandery No. 2, Knights Templar, took place last night. Will D. Stephens, Past Grand Master, acted as installing officer and W. A. Hammel, Grand Captain General, acted as marshal. The new officers are: Commander, E. Sir Charles L. Logan; Generalissimo, Sir William H. Booth; Captain General, Sir Andrew J. Copp; Jr. Senior Warden, Sir Leo V. Young; Junior Warden, Sir James A. Reid; Prelate, Sir Warren E. Rowley; Treasurer, Sir Walter C. Durkin; Recorder, E. Sir Freeman G. Tred; Standard Bearer, Sir Frank L. Miller; Sword Bearer, Sir S. M. Sinsbaugh; Warden, Sir William H. Harrison; Sentinel, Sir William M. Dixon; Third Guard, Sir W. B. Frackleton; Second Guard, Sir John Wilcox; First Guard, Sir Roger B. Powell.

ACCUSE STEPFATHER.

Patrolman Cornwell arrested Silverio Martinez and wife of No. 304 1/2 Baugh street yesterday. The prisoners are in jail pending an investigation of charges that the man attempted to assault his stepdaughter, Mary Vies, 10 years old, and that the mother aided him in such designs. The girl was taken to the Receiving Hospital where she was examined by Police Surgeon Wiley, who found no evidence that a crime had been committed. It is said that a witness will be produced who saw Martinez attempt an assault and that neighbors will testify that they were cognizant of it.

MYSTERIOUS FIRE.

A fire of mysterious origin broke out in the cottage owned and occupied by H. Hammingman, No. 439 Windemere avenue, last night. The locality is without fire protection, and when H. H. Company No. 4 responded, the firemen were compelled to fight the flames with garden hose. The loss is \$300 on the building and \$300 on the contents.

UNDELIVERED TELEGRAMS.

There are undelivered messages at the Postal Telegraph-Cable Company for H. Hudson, Mrs. Harold Sundberry, Wm. Lands, Mr. and Mrs. Neitz and Mrs. William Mill.

FRENCHMAN'S BODY FOUND.

One-Time Inmate of Patton Asylum Dies in Isolated House in Riverside County.

(SPECIAL CORRESPONDENCE OF THE TIMES.) RIVERSIDE, May 26.—The body of Michael Frenchman, an elderly Frenchman, was found in an isolated house near Wineville last evening. There were no evidences of foul play, and it is supposed that he died from natural causes. The Frenchman was at one time an inmate of the State Hospital at Patton.

The Democrats of Riverside county met in the Y.M.C.A. building yesterday afternoon, endorsed Theodore Bell for Governor, agreed to the candidacy of a number of the present county officials, and will meet June 4, to complete their ticket. They endorsed four candidates.
